DES MOINES, Iowa, September 13, 2016 – Today, Passport® Food Safety Solutions, Inc. announced the addition of two industry professionals – Matt Husman and Helena Pelegrini Nogueira.

Husman joins the Passport team as Vice President of Sales where he'll assume responsibility for providing leadership in supporting the growth of current and future products and creating value for our customers throughout North America.

With more than 15 years of experience, Husman has built a career in food safety, working with organizations like Walmart, Corbion-Purac and Mérieux NutriSciences. He has a proven track record and wealth of knowledge in multiple segments of the food safety industry.

Pelegrini Nogueira joins the team as Commercial Director – Latin America. Her role will be to provide leadership in gaining regulatory approvals for food safety technologies and building a commercial team that will expand the Passport Food Safety Solutions footprint in targeted Latin American countries.

Pelegrini Nogueira also comes to Passport with more than 15 years of experience working with domestic and multinational companies in food safety and energy. She previously worked with Elanco and DuPont in sales leadership and business development positions in Latin America.

"Matt and Helena are seasoned professionals with a passion for and expertise in food safety," says Tom Nicholson, CEO, Passport Food Safety Solutions. "As we continue to broaden our business portfolio, their combined experience, leadership and strategic thinking will have an immediate impact on the development of new opportunities. I have no doubt that they will be pivotal in Passport Food Safety Solutions' continued success here in North America and with our expansion into the Latin American market."

The only company of its kind, Passport Food Safety Solutions offers insights from plant-specific and industry benchmark analytics; a broad product portfolio with the latest food safety innovations; and a unique system for evaluating and commercializing new technologies. The company has offices in Johnston, Iowa, and College Station, Texas, and will continue to expand to other parts of the world.
